# Enjoy the Magic of Tuscany

the food, the wine, the sunshine, the laughter,  
the growth and the great company

## Welcome to Tuscany.....

For those who have already attended a workshop with Eric, this promises to be one of the most unusual 'workshops' ever. For those new to the work, this one or two week program will provide a wonderful foundation and understanding.

For this one or two week long experience we are moving into a wonderfully renovated old walled village just outside of Lucca in Tuscany. Our program will consist of a mix of 'workshop' time, wine tasting, food tasting !!! Laughter and relaxing and moment by moment, living the work. Applying the 'clearing' principals on a daily basis we can expect to develop the skills required to 'be' the work anytime, anyplace.

This is a self catering funshop, all contribute to menu ideas and help out with the kitchen duties. Weather and time permitting, some strolls through the olive groves and vineyards and al fresco study time. All wrapped around daily sessions designed to support growth and change on a deep level, allowing us to find a place within where we can more easily call upon the stillness found at these residential workshops while at home or at work.

This is a new approach to a residential program, places are strictly limited and rooms will be allocated on a first come basis. Due to a fixed room configuration at the villa options are limited.

'The Gathering Place' is an old 'borgo', a walled village, recently restored in keeping with the original 13th Century village, though rest assured there is running hot water! Set in terraced olive groves and vineyards, the villa looks out to the medieval village of Lucca.

The nearest airport is Pisa, only 20km away.

**YES, please sign me up for Tuscany 2010**
